## Who It Is For

---

-  Small apartments with limited space
-  Users needing portable drying solution
-  Travelers requiring compact dryer
-  Owners of standard outlet-equipped homes
-  Those prioritizing energy efficiency
-  People with temporary drying needs

## Who It Is Not For

---

-  Larger homes requiring high-capacity dryer
-  Users needing hardwired installation
-  Those prioritizing speed over efficiency
-  People with limited mobility for setup
-  Commercial laundry operations
-  Users requiring smart home integration

## Trade Offs to Consider

---

-  Smaller capacity than standard dryers
-  Limited to 120V outlet compatibility
-  Manual operation without digital controls
-  Requires periodic filter maintenance
-  Shorter lifespan compared to industrial models
-  Portable design sacrifices some durability

## Users Say

---
