Anti-rust and long-lasting design

Who It Is For

-  Users with magnetic washer panels
-  Those seeking odor prevention
-  Owners of front load washers
-  People needing flexible door support
-  Users looking for scratch-free installation
-  Individuals with limited space for storage

Who It Is Not For

-  Owners of stainless steel washers
-  Users with non-magnetic panels
-  People needing permanent installation
-  Those without access to magnetic surfaces
-  Users of plastic or composite washers
-  Individuals without a washer door

Trade Offs to Consider

-  Limited to magnetic surfaces only
-  Not suitable for stainless steel
-  Requires proper panel setup
-  No built-in power source
-  May not work on all washer models
-  Not ideal for high-traffic areas

Users Say

● POSITIVES

- ✓ Easy to install and adjust
- ✓ Helps keep the door open consistently
- ✓ Soft material prevents scratches
- ✓ Works well with most magnetic panels
- ✓ Improves ventilation and reduces odors

● COMPLAINTS

- ⚠ Not compatible with all washer types
- ⚠ Requires magnetic panel for use
- ⚠ Limited flexibility in some setups
- ⚠ Not suitable for non-metal surfaces
- ⚠ May not hold if panel is not magnetic

How It Compares

- More flexible than rigid door stops
- Easier to adjust than fixed holders
- Less likely to damage surfaces than clips
- Better for odor prevention than manual methods
- Requires magnetic panel for function
- Not as durable as metal alternatives

Choose This If...

- ✓ You need odor prevention
- ✓ Your washer has magnetic panels
- ✓ You want a flexible door support
- ✓ You prefer a scratch-free solution
- ✓ You need a lightweight, adjustable tool
- ✓ You want to keep the door open consistently

Skip This If...

- × Your washer is not magnetic
- × You need permanent installation
- × You have a stainless steel washer
- × You don't want to adjust the door
- × You need a heavy-duty solution
- × You have a plastic or composite washer
