### POWER

**110V electric motor with 240W energy efficiency**

### DESIGN

**Top-load twin tub with separate wash and spin cycles**

### WEIGHT

**22 lb (lightweight for portable use)**

### COLOR

**White or blue painted finish**

### FEATURES

**Dual tub system with separate timers and controls**

## Who It Is For

---

-  Small apartments or dorms with limited space
-  Families needing quick laundry for small loads
-  Campers or RV users requiring portable washing
-  Students with laundry needs for bedding/socks
-  Busy parents needing fast wash-and-spin cycles
-  Tiny home living spaces with no laundry room

## Who It Is Not For

---

-  Users requiring large laundry capacity
-  Those needing heavy-duty commercial use
-  People with limited mobility for manual operation
-  Individuals needing automatic detergent dispensing
-  Users requiring permanent installation
-  Those needing high-speed spin cycles (1300 RPM)

## Trade Offs to Consider

---

-  Limited to small laundry loads (under 10 lbs)
-  Requires manual handling of both tubs
-  No automatic detergent dispensing system
-  Less capacity than full-sized machines
-  Manual timer controls instead of digital display
-  Requires access to kitchen faucet for water

## How It Compares

---

- Smaller than standard portable washers
- Less capacity than full-sized machines
- More compact than dual-tub commercial units
- Simpler than smart washer systems
- Fewer cycles than advanced laundry machines
- Lower power consumption than industrial units

### Choose This If...

---

- ✓ Need compact laundry solution for small loads
- ✓ Want dual washing and spinning in one unit
- ✓ Looking for lightweight portable design
- ✓ Require quick wash-and-spin cycles
- ✓ Need space-saving countertop appliance
- ✓ Seek energy-efficient laundry solution

### Skip This If...

---

- ✗ Need large laundry capacity (over 10 lbs)
- ✗ Require automatic detergent dispensing
- ✗ Looking for digital timer controls
- ✗ Need high-speed spin cycles (1300 RPM)
- ✗ Want permanent installation options
- ✗ Require commercial-grade durability
